## SUMMARY

**Dynamic Frontend Engineer | Web Development Educator | Expert in UI/UX Design**

Dynamic and results-driven Frontend Engineer with a passion for shaping the future of web development through innovative UI/UX designs and robust frontend solutions. A dedicated educator with over 8 years of experience at the Women Development Center, empowering students with practical skills in web development and UI/UX design. Proven expertise in JavaScript, HTML5, CSS3, React.js, and Bootstrap 5, complemented by a solid foundation in business administration. Recognized for delivering impactful projects in fintech and technology consultancy sectors. Adept at collaborating with backend teams to convert UI designs into responsive and functional websites. Eager to leverage technical proficiency and instructional leadership to drive transformative digital experiences.
